True or False: Women Get Drunker Than Men | Winchester

Nov 07, 2008 · Alcohol can’t be dissolved in fat, so more alcohol becomes concentrated in a woman’s body fluids (like blood), raising her BAC to a higher level than that of a man of similar weight who drinks the same amount of alcohol. Compared with men, women have less alcohol dehydrogenase (ADH), an enzyme in the liver and stomach that breaks down alcohol.

Alcohol Use Disorder (AUD): MedlinePlus

Oct 26, 2021 · For most adults, moderate alcohol use is probably not harmful. However, about 18 million adult Americans have an alcohol use disorder (AUD). This means that their drinking causes distress and harm. AUD can range from mild to severe, depending on the symptoms. Severe AUD is sometimes called alcoholism or alcohol dependence. AUD is a disease that
