China’s rise as a world power | International Socialist Review

Its rise is the result of very unique factors I outlined previously that other third-world countries do not possess. I don’t think it’s wrong to say that China is part of global neoliberalism especially when you see China come forward and say that it is willing to replace the US as a guardian of free-trade globalization.

Mortality Analyses - Johns Hopkins Coronavirus Resource Center
Nov 21, 2021 · Mortality in the most affected countries. For the twenty countries currently most affected by COVID-19 worldwide, the bars in the chart below show the number of deaths either per 100 confirmed cases (observed case-fatality ratio) or per 100,000 population (this represents a country’s general population, with both confirmed cases and healthy people).

Developmental state · Wikipedia
Developmental state, or hard state, is a term used by international political economy scholars to refer to the phenomenon of state-led macroeconomic planning in East Asia in the late 20th century. In this model of capitalism (sometimes referred to as state development capitalism), the state has more independent, or autonomous, political power, as well as more control over the economy.
